

# Caramel Flavour

Caramel is a confectionary product that is commonly added in food as topping, filling as well as syrup. It is made through heating some amount of sugars, butter, cream and salt at low temperature. A soft chewy texture of caramel as filling and topping enhance the taste and aroma of ones product.

Caramel Flavour has a pleasant sweet, milky and creamy taste. The sweet creamy aroma from the flavour likely smelled like real caramelised sugar. Currently, the caramel flavour is popular among coffee lovers as a complete combination of the bitterness of coffee.

**CA FLAVOR** offers various of interesting Caramel Flavours with beneficial attribute that will appeal to your taste buds. Our flavours is suitable for bakery, confectionary and beverages products.
