

Lychee Flavour

Lychee is one of the tropical fruits that come from the soapberry family. The skin surface of lychee fruit is full of small blunt thorns with a reddish colour. Its flesh is fresh white and has a soft texture. Usually, lychee fruits can be eaten fresh, but in the food industry they are canned and dried to preserve quality.

Lychee Flavour is rich in flavour like a fresh, sweet-watering, and musky aroma. The taste of floral, sweet and slightly acidic upon biting the food product with lychee flavour amplifies the juiciness of the real fruit.

CA FLAVOR provides various delightful yet amusing food and beverage flavours including Lychee Flavour. Our Lychee Flavour is guaranteed as one of our best as it promises a floral, sweet lychee and mouth-watering profile.
